PROFESSIONAL SUMMARY

Analytics-driven MCA student with hands-on experience coordinating project deliverables, tracking KPIs, and driving process improvement through Power BI and data-led decision-making. Familiar with SDLC and Agile/Scrum through academic and personal software projects, with demonstrated leadership delivering end-to-end applications (role-based systems, secure authentication, workflow management). Strong decision-making and cross-team communication built through business process mapping and dashboard-driven reporting. Quick learner of Alteryx, Tableau, and Microsoft Power Platform (Power Apps & Power Automate).

CORE COMPETENCIES

Project & Process Management: SDLC fundamentals, Agile & Scrum methodology, project coordination, business process mapping, cross-team communication, decision-making, leadership

Business Intelligence & Reporting: Power BI dashboard design, KPI analysis, data visualization, data cleaning & transformation

Databases & Queries: SQL, MySQL, Firebase Firestore, database concepts

Programming: Python (basic), C, C++, Java, Dart

Tools: Microsoft Excel, Power BI, GitHub, Visual Studio Code

EDUCATION

Master of Computer Applications (MCA) — Pursuing

2025 – 2027

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Computer Applications (BCA)

2022 – 2025

Mahatma Gandhi Kashi Vidyapeeth University

RELEVANT PROJECTS

TPO Placement System

- Led end-to-end delivery of a role-based placement management system (Flutter & Firebase) — planned scope, defined workflows, and coordinated development across authentication, roles, and process modules, reflecting core SDLC and project-coordination practices.
- Designed secure, role-based access and status-tracking workflows, applying decision-making and process-mapping skills relevant to managing multi-stakeholder project timelines.

Power BI Sales Dashboard

- Built interactive dashboards with KPIs, trend analysis, and business insights using data cleaning and transformation techniques, supporting data-driven project and business decision-making.

Personal Portfolio Website

- Managed the full design-to-delivery lifecycle of a responsive web application using Next.js, Tailwind CSS, and Framer Motion, independently scoping requirements and iterating through build stages.

LEADERSHIP & SOFT SKILLS

- Decision Making & Leadership:** Directed project scope and priorities independently across academic and personal projects.
- Agile & SDLC Awareness:** Applied phased, iterative development practices (planning, build, testing) across coursework and personal projects.
- Cross-team Communication:** Coordinated with peers and stakeholders while scoping and delivering applications end to end.

CERTIFICATIONS

- Core Java Certification — Internshala Training
